

ANNOUNCEMENT

19 November 2025

Corporate and Arbitration Update

AVZ Minerals Limited (**AVZ** or **Company**) refers to its announcement of 9 May 2025 in respect of the US brokered peace and security discussions between the Governments of the Democratic Republic of the Congo (**DRC**) and Rwanda and the role the Manono Lithium and Tin Project (**Manono Project**) could potentially play in advancing the DRC's interests in critical mineral supply chain.

AVZ reiterates that the framework agreed with Kobold Metals Company in relation to a potential sale of AVZ's interests in the Manono Project has not yet resulted in the presentation by Kobold of a proposal which AVZ can entertain, having regard to the interests of AVZ's shareholders and other stakeholders including its cornerstone investor Suzhou CATH Energy Technologies.

The Company is currently in discussions with several parties with respect to funding, who also share the Company's optimism with respect to the Manono Project and the important role the DRC has to play in balancing global critical mineral supply chains. Whilst AVZ is not bound by any exclusivity obligations with Kobold or any other party, it will continue to pursue a competitive process to select a preferred counterparty in respect of a sale of AVZ's interest in the Manono Project, in co-operation with its obligations to its cornerstone investor.

To allow AVZ to complete its funding discussions and also accommodate further settlement discussions with stakeholders in connection with a sale of AVZ's interest in the Manono Project, AVZ sought and obtained a suspension of the ICSID proceedings until 27 February 2026.

Shareholders will be updated on the conclusion of the funding discussions and be provided with an updated arbitral tribunal timetable at the appropriate time.

This announcement was authorised for release by the board of directors of AVZ Minerals Limited.
